Dear Hiring Manager,

I am writing to express my interest in the Web Development Intern position at your organization. I am currently learning web development and have been developing my skills in HTML, CSS, JavaScript, and modern web technologies. I am eager to apply my knowledge in a real-world environment and gain hands-on experience while contributing to meaningful projects.

I am passionate about building responsive and user-friendly websites. During my learning journey, I have worked on small projects that helped me understand front-end development, problem-solving, and writing clean, maintainable code. I am also continuously improving my skills and staying updated with the latest web development trends and tools.

I am a quick learner, detail-oriented, and enjoy working both independently and as part of a team. I believe that an internship with your company would be a valuable opportunity for me to grow as a developer while contributing positively to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and enthusiasm align with your needs.

Sincerely,

Ankush Sharma
